

AmerisourceBergen Drug Corporation Honored by HDMA with iBusiness Solution Award
Implementation of Software to More Processes More Efficient Highlighted

The Healthcare Distribution Management Association (HDMA) recently presented an iBusiness Solution Award to AmerisourceBergen Drug Corporation, honoring the use of innovative technology to streamline supply chain operations and improve business efficiencies.

The award from HDMA, which has been given out since 1987, recognizes forward-thinking companies in their innovations of existing systems to the unique implementation of technologies with revolutionary process design.

“We are pleased to be recognized for our efforts to drive efficiency in our pharmaceutical supply chain,” said Shay Reid, vice president, Operations, for AmerisourceBergen Drug Corporation. “The award was based on our implementation of the StreamServe Automated Output software. The software allowed AmerisourceBergen Drug Corporation’s distribution centers to reengineer and streamline our customer document generation process.”

The implementation of StreamServe helped to improve the quality of the documents and services for customers, eliminate errors and reduce costs. Business documents included in the application are: invoices, credit memos, return authorizations, recall notices, new product notifications and customer letters.

AmerisourceBergen Drug Corporation was presented with the award at the 2009 Distribution Management Conference & Expo in Baltimore on March 17th.
