

October 2025

Dear 340B Hospital Covered Entity,

In follow up to Pfizer's communication sent September 2025, Pfizer is clarifying the announced updates to your One Contract Pharmacy Exemption. Upon review of your records, we see that you are purchasing injectable products with shipment to an in-house or infusion pharmacy for administration to patients.

We are clarifying that wholesalers will continue to ship 340B priced products to your registered one contract pharmacy location, or as needed for injectable products, a ship to location listed on your OPAIS Covered Entity Parent or Child records as a "Street Address" or "Shipping Address" available at [340B-Search Covered Entities](#)

No action is required.

If you have any questions about this update, please contact Pfizer at 340BCP@pfizer.com.

Thank you for your interest in Pfizer's products for your patients.
