

# Grantee support – Enhancing access and transforming community health together

Expand your FQHC's impact even further with a team of experts and strategies to support you through drug distribution and 340B program challenges.

**With policy changes, funding cuts, and a growing number of underserved patients in need of your services, the health of your organization's programs can have an impact on the wellbeing of your patients.**

Face these challenges confidently with Cencora's expert teams and solutions. As an industry leader in solutions that accelerate better health outcomes, we're your partner in enhancing pharmacy success, improving financial optimization, and boosting community impact.

Access to healthcare for patients is essential, particularly when a necessary product is hard to obtain. The key to delivering consistent and quality patient care is a reliable distribution partner that can also assist with claim reimbursement, drug access, and process efficiency—helping you maintain and expand care to underinsured patients who need it most.

## Distribution

Lean on a trusted Prime Vendor Program member, shipping more than 4 million products each day and delivering cost-savings to 340B participants, nationwide for more than 40 years. Cencora offers comprehensive distribution services that ensure timely and efficient delivery of pharmaceutical products to healthcare providers including federally qualified health centers. From decades of experience in product integrity and dependable fulfillment, to easy online ordering and integrated data and analytics, Cencora is a leading expert in product purchasing and distribution.

### 340B program support

A 340B program is vital to your organization—and community's— wellbeing. Our team of experts has decades of 340B experience within health centers, pharmacies, vendors, and government associations, dedicated to helping organizations like yours manage a successful program. From minimizing stress surrounding account setup, compliance, and growth, to maximizing opportunities with analysis and ideation, Cencora is here to help you stretch your scarce resources even further.

### SmartSource Access

Maintain a reliable supply of products to enhance patient care through SmartSource. When items are unavailable at the primary distribution center, SmartSource provides access to inventory for those items, including the same formulary products, short-dated items and one-time closeouts.

### Elevate Provider Network

Elevate can help provide a healthier, more financially secure future for 340B contracted pharmacies. Delivering significant financial benefits by optimizing reimbursement processes and implementing strategic contracting that improves overall profitability for pharmacies. These benefits can make a difference in your pharmacy's bottom line, enabling you to continue effectively serving your community.
