A Developing Landscape

Making 660m doses available to 330m Americans...

— Demand – Eligible Population
— Supply – Doses Available

An Unprecedented National Challenge

Net new capabilities to safely and efficiently distribute and administer the vaccine...

- New Manufacturer Technologies
- Novel Logistics Constraints
- Data and Reporting
- Jurisdictional Planning
- Social Challenges

Commercial Distribution of Veklury® (Remdesivir)

- Effective **October 1, 2020**, hospitals can submit orders for Veklury (remdesivir) **directly to AmerisourceBergen** for the treatment of hospitalized COVID-19 patients.
- With this change, AmerisourceBergen will remain the sole U.S. distributor of Veklury (remdesivir) through the end of this year.
- Veklury (remdesivir) will be distributed through AmerisourceBergen's specialty distribution capabilities.
- It is important to note that **orders should be placed on an as needed basis** to treat current patients in accordance with EUA documentation for Veklury (remdesivir).

Ordering Veklury® (Remdesivir)

- AmerisourceBergen will continue to source and sell **two formulations of Veklury (remdesivir)** from Gilead Sciences, including **lyophilized powder**, which is stored at ambient temperatures, and **liquid vials**, which are refrigerated.
- Veklury (remdesivir) will be available in AmerisourceBergen ordering platforms for inpatient settings only, using the following item numbers:
 - **Veklury lyophilized powder: Item number 57889**
 - **Veklury liquid solution: Item number 57890**
- Orders of Veklury (remdesivir) can be placed by **calling or emailing AmerisourceBergen Customer Service** and through **AmerisourceBergen ordering platforms**.
- Pricing will not change, and customers can expect the same **Wholesale Acquisition Cost (WAC), which is approximately \$3,200 per treatment course**.
- For additional information regarding purchasing or how to access Veklury (remdesivir), hospitals can email remdesivir@amerisourcebergen.com, call **1-800-746-6273** or reach out directly to their AmerisourceBergen representative.

Blood Plasma Availability Update

- Manufacturers are anticipating potential tightness for the availability of blood plasma toward the end of 2020 and early 2021
- AmerisourceBergen is working with manufacturers to ensure committed customers receive their normal run rate of IG grams
 - If there is an opportunity for AmerisourceBergen to stock additional inventory, we will do so proactively
- Encourage you to help support supply chain stability by being attentive to purchasing and purchasing for current patient need only
 - Manufacturers are going to do everything possible to make grams available

New AmerisourceBergen Solution: **CubixxMT**

■ **What is CubixxMT?**

- CubixxMT is Cubixx – Medication Tray that provides RFID-enabled inventory monitoring and management, where medications come pre-tagged directly from AmerisourceBergen and ready to stock and re-stock your trays
- CubixxMT is a solution that is a direct result of listening to our customers
- COVID-19 presented many challenges, one being that health systems were having to find new ways to adapt to having many long-term, chronically ill patients, and having an assortment of medications easily accessible and ready-to-go, especially for vented patients
- For more detailed information on CubixxMT, please reach out directly to your AmerisourceBergen representative
