World Courier

# Global Dry Ice

The forefront of pharmaceutical  
packaging innovation

Dependable deep-frozen transport tailored  
to your product – standardized worldwide

## About Global Dry Ice Thermal Container (GDI)

GDI is a robust solution for shipping at deep frozen temperatures. It is configurable to precisely meet the requirements of each individual shipment. But it also adheres to consistent global standards. Wherever you're shipping to and from, you'll benefit from the same performance, pricing, and reporting – backed by a proven track record.

---

**In 2019, World Courier handled more than 125,000 dry ice shipments in 171 countries for over 2,000 customers.**

---

### Why choose GDI

Precise. Reliable. Exactly as needed

#### Secure your deep-frozen cold chain

Robust shippers with in-transit replenishment as needed.

#### Get the same quality and support or service globally

Standardized for uniform performance, pricing, and reporting.

#### Configure your ideal solution

From GDI 7L to GDI 80L, tailored precisely for temperature.

#### Get peace of mind

Packaging solution whose temperature qualification removes the need to recharge, inspect or refill the unit for up to 120 hours\*.

### All-encompassing logistics

Turnkey solutions designed by experts for experts

#### Start packing immediately

GDI boxes are pre-checked and pre-conditioned to the required temperature.

#### Keep track of your shipment

We transport your most precious shipments and monitor their safety and integrity at all time. So can you.

#### Leave returns to us

We'll collect your packaging and recycle it.

\* Depending on the shipping profile and external temperature conditions. World courier checks the dry ice level at all transit points and fills up when needed.

# Key Features

## Deep frozen made simple

- Pre-qualified for deep frozen temperatures below -60°C and -20°C
- Uniform reporting
- Standardized, enhanced performance
- Dry ice supply maintained at all time, throughout the network

## Customized tracking

- Temperature and location tracking as needed.

## Sustainability impact

- Single use packaging
- Materials partly disposable and fully recyclable

# Specifications

Size	GDI 7L	GDI 15L	GDI 30L	GDI 45L	GDI 80L
System type	Dry ice				
Temperature qualification	24 hours (-60°C) 48 hours (-20°C)	48 hours (-60°C) 72 hours (-20°C)	48 hours (-60°C) 96 hours (-20°C)	48 hours (-60°C) 96 hours (-20°C)	48 hours (-60°C) 120 hours (-20°C)
Temperature ranges	<b>Deep frozen: -60°C</b> <b>Deep frozen: -20°C</b>				
Size	30.8x30.8x31cm	40.3x39.6x41.6cm	46.5x45.8x47.8cm	57x52x44cm	57x52x63.5cm
Volumetric weight (tare)	4.9kg	11.1kg	17kg	21.7kg	31.4kg
Sustainability impact	Single use, disposable and fully recyclable				
Certification & approvals	ISTA 7D & PI 650				

# AmerisourceBergen

World Courier

# 04 reasons

to choose World Courier

## 1 Consultative approach

Precisely tailored solutions for your individual requirements.

## 2 Process expertise

First- to last-mile, delivered to exacting standards.

## 3 Comprehensive range of solutions

The best of the market, and our own innovations, across all temperature ranges.

## 4 Designed by experts for experts

50+ years redefining what's possible in specialty logistics.
