CERTIO 2020 Training

🕒 30 min

👤 Web conferencing details provided upon confirmation.

The improved CERTIO® offers an easier-to-use platform with enhanced analytics to better support manufacturers' business with AmerisourceBergen. Users will have access to a redesigned overview that highlights sales, inventory, and service level as well as more detailed, exception-based dashboards that identify key opportunities to improve overall supply chain health. The soon-to-launch Tableau-based dashboards provide greater insight into the AmerisourceBergen distribution network and support proactive communication across organizations. Manufacturers can now address key questions such as: How many of
