

AmerisourceBergen

Cell and gene therapy solutions

Partnering with you to move advanced therapies forward

When healthcare advances, so must the processes to connect patients to the therapies they need. And because a rapidly changing cell and gene therapy industry requires an equally innovative partner, AmerisourceBergen is committed to delivering solutions that enable this connection.

AmerisourceBergen is working with manufacturers to identify and overcome barriers

Our consultative approach and extensive reach across healthcare give us access to the best insights in the industry – insights we leverage to help reduce logistics, order-to-cash, clinical trial, commercialization, and patient support challenges for our partners and the patients they serve.

Expert guidance on market access, reimbursement and policy

Complete logistics support, from pre-clinical through clinical trials to commercialization and post-launch solutions to ensure product quality standards are maintained

Established relationships with thousands of healthcare providers optimizes the order to cash process and ease of product access

Innovative patient access, affordability and adherence solutions unique to cell and gene therapies

Complete data solutions provide visibility to the patient journey

Keeping patients at the center of everything we do

We know that navigating treatments and support can be challenging for patients. That's why we approach every touchpoint along the cell and gene therapy commercialization and treatment journey with the patient in mind.

Advancing connections across healthcare

AmerisourceBergen

Dedicated to building sound solutions for cell and gene therapies

Our vast company history, experience and expertise across the AmerisourceBergen network of businesses puts us in a unique position to collaborate with emerging cell and therapy manufacturer partners.

We have successfully worked with 100% of approved cell and gene therapies as well as multiple products still in development. In addition, our extensive reach has served patients for clinical trials and commercial distribution in the US, and in more than 50 countries worldwide.

From pre-clinical and commercial logistics to distribution and order to cash solutions to reimbursement insights and hub services, our experts can assist with finding the right solutions for your therapy.
