AmerisourceBergen’s Supplier Diversity Statement

AmerisourceBergen Corporation is committed to procurement from minority, women, small, disabled, veteran, and LGBT+ owned businesses as they are the foundation of a competitive economy and the source of business innovations that make AmerisourceBergen Corporation a leader in Healthcare distribution and related services. We do this through our practices, policies, and programs designed to increase the inclusion of diverse businesses in AmerisourceBergen’s sourcing process.

AmerisourceBergen encourages working with diverse suppliers while ensuring that it receives the highest quality products and services at the most competitive prices. To do this, AmerisourceBergen performs outreach efforts to gather profile information on companies that offer products and services that meet AmerisourceBergen’s business requirements. AmerisourceBergen has established relationships with the National Minority Supplier Diversity Council (NMSDC), Women’s Business Enterprise Council (WBENC), National Veteran Business Development Council (NVBDC) and the National Gay & Lesbian Chamber of Commerce (NGLCC). AmerisourceBergen works with these organizations in identifying, promoting, and developing relationships with small and diverse companies. Further, AmerisourceBergen encourages our supplier partners to register and certify with these agencies and to self-identify as a diverse supplier using the link below.

AmerisourceBergen strives to provide qualified diverse businesses the opportunity to participate in bidding processes, pursuant to customer contractual and regulatory requirements. The percentage of business dollars spent with small and diverse businesses is impacted by the nature of the pharmaceutical distribution industry, where a majority of spend for required product is with major pharmaceutical manufacturers where alternative procurement options may not exist.

With the guidance of the Small Business Administration, AmerisourceBergen reports Supplier Diversity figures in an annual Commercial Reporting Plan. The Commercial Reporting Plan includes company-wide information and relates to the entire business activity for both, direct and indirect products and services, and is representative of the entire AmerisourceBergen business activity and is not solely related to any specific customer activity.

Any questions regarding our Supplier Diversity Program can be directed to the attention of Global Indirect Strategic Sourcing at GISS@AmerisourceBergen.com
