

2025–2026 COVID-19 vaccine returns guidelines

All return requests must comply with the terms listed in this guide to see that they are processed appropriately.

Vaccines previously received from the U.S. Government via the Federal Retail Pharmacy Therapeutics Program (FRPTP) are not eligible for return. Please complete the necessary steps to report this product as waste. For questions, contact seasonalvaccines@amerisourcebergen.com

What you should know before getting started

01 Eligible products and return periods include:

- a **Moderna:** Up to 10% per presentation between April 1, 2026 and June 30, 2026
- b **Pfizer-BioNTech:** Must be received by September 15, 2026. Credit will not be calculated until after August 1, 2025:
 - i 30% of doses purchased for Comirnaty Age 12y and Older.
 - ii 100% of doses for Pfizer-BioNTech COVID-19 Vaccine ages 5-<12 and 6 months of age to <5 years.

Important note: Direct agreements or contract fulfillment agreements may have different terms. Please refer to your agreement for applicable returnability percentages and deadlines.

02 Per manufacturer direction, select vaccines are required to be returned directly to the manufacturer. See the return methods outlined on the following page for guidance. Direct-to-manufacturer returns are authorized solely by the manufacturer and may be subject to additional terms. Credit will be issued at the amount authorized by the manufacturer. For questions, please contact the appropriate manufacturer.

03 For returns that are shipped to and processed by Cencora:

- a Unless otherwise noted, Cencora or its entities will accept unused prefilled syringes and single dose vials. Whenever possible, please keep doses in their original packaging.
- b Credit for returned merchandise will only be issued for items authorized for return by Cencora or its entities. All credits will be reflected on the customer's account to apply toward future purchases. Credit is issued at the original purchase price shown on the invoice, less the amount of off-invoice allowances or adjustments, if any.
- c Vaccine returns may be subject to return freight cost. Freight charges apply to each return authorization and will be deducted from the credit amount or billed separately if applicable.
- d Cencora or its entities is not obligated to process return requests for damages resulting from deliveries to changed shipping addresses and/or customer business hours that were not communicated to Cencora prior to the shipment.
- e Customer must report order errors, damages and/or discrepancies within 48 hours of receiving refrigerated items. Cencora or its entities are not obligated to issue credit for errors or discrepancies that are not reported within this time frame.
- f Cencora or its entities may require a signed PDMA to accept an eligible return.

Ready to return?

See the following page for returnability and return request instructions.

Let's get started

There are different eligibility requirements and return request methods per manufacturer guidance. Please read all instructions below before proceeding with a return request.
