

The AmerisourceBergen® FOUNDATION

1300 Morris Drive
Chesterbrook, PA 19087

Friends, Colleagues and Partners:

Since its establishment in 2014, the AmerisourceBergen Foundation has operated with a clear mission: Positively impact the lives of people in the communities we serve by improving the health and wellbeing of our patient populations. Together with our partners, we seek to strengthen communities around the world by partnering with organizations that expand access to quality healthcare and educational opportunities to underserved and vulnerable populations.

While it is important to look ahead to the Foundation's future, it is also important for us to reflect on what we have accomplished. Through our partnerships with organizations that align with our mission—organizations which include Project HOME, Family Reach, Partners in Health, CEOs Against Cancer and Project C.U.R.E.—we have inspired passion within the healthcare industry and provided opportunities to create a better tomorrow for our communities. We have helped solve ongoing operational issues with distribution, funded activations to distribute medical supplies to more than 130 developing countries, created state of the art medical equipment and facilities in developing countries, provided financial assistance to families of cancer patients and more. Most importantly, we have created healthier futures.

With the success of these partnerships comes the responsibility to continue our work and to do more. As proud as we are of our combined accomplishments, and as grateful as we are to work with our exceptional partners, we know we can expand our reach and impact more lives. We can make the world a better place, one community at a time.

Gina Clark
President
AmerisourceBergen Foundation
