

The AmerisourceBergen® FOUNDATION

1300 Morris Drive
Chesterbrook, PA 19087

Friends, Colleagues and Partners:

Since its establishment in 2014, the AmerisourceBergen Foundation, an independent not-for-profit charitable giving organization established by the AmerisourceBergen Corporation, has operated with a clear mission: to improve the health and well-being of patient populations – both human and animal – by investing in its communities. Through strategic partnerships and community collaboration, the Foundation works to expand access to quality healthcare and provide resources to ensure prescription drug safety.

Through our work with organizations that align with our mission—organizations which include Project HOME, Family Reach, Partners in Health, Americares, The Moyer Foundation and Project C.U.R.E.—we have provided opportunities to create healthier futures for our communities. We have helped solve ongoing operational issues with distribution, funded activations to distribute medical supplies to developing countries, created state of the art medical equipment and facilities in developing countries, provided financial assistance to families of cancer patients and supported companion animal populations impacted by natural disasters. And in 2017, building off ongoing efforts through the Foundation toward curbing opioid misuse, we created dedicated programs to advance ideas from innovative non-profit, grant-funded organizations and provided drug deactivation resources to municipalities and non-profit organizations. To help inform these programs, we rely on a group of independent, universally-recognized experts who share our desire to stop opioid misuse, now and in the long-term.

As proud as we are of our progress, and as grateful as we are to work with our exceptional partners, we recognize our responsibility and our opportunity to expand our reach and impact more lives.

Gina Clark
President
AmerisourceBergen Foundation
